### Business

#### **Bibby invests in skills in Ukraine**

Liverpool-based Bibby Ship Management has opened a training centre in Ukraine. The group has invested \$1.5m in the facility, which will provide basic and advanced skills for seafarers employed in the offshore industry. The centre will sit alongside the group's newly relocated crew management premises in Sevastopol and aims to deliver programmes to almost 250 students during its first year. It follows a similar successful development in Mumbai as the group continues to strengthen its global full service ship management operation.
